

## HOPE Academy

### Part-Time vs. Full-Time Comparison Chart

Students participating in the HOPE Academy Concurrent Enrollment Program may choose to participate as a Full-Time student. The chart below is a guide to help parents understand the difference between a part-time, homeschooled student and a full-time student. Full-time participation is open to students who transfer from a public school setting, or students who transfer from the HOPE Academy part-time program. It is important for previously homeschooled students and their parents to understand the impact of becoming a full-time student. The chart below outlines the differences according to the Colorado Homeschooling Laws, C.R.S. 22:33:104.5.
